## WHO WE ARE

- 247 Manufacturing is a State-of-the-Art Sheet Metal Fabricator, who manufactures for all industries on demand.
- 247 Manufacturing provides on demand manufacturing with turn around times 50% faster than the competition.
- Robotic automation reduces production time and increases throughput, enabling us to handle large-scale projects efficiently.
- Reduced labor costs and minimized material waste translate to competitive pricing without sacrificing quality.
- Our state-of-the-art equipment allows for complex fabrications that may be challenging for traditional manufacturers.
- Automation ensures uniformity across all products, reducing variability and ensuring compliance with stringent government specifications..

## WHAT WE DO

### SHEET METAL MANUFACTURING

- 2D Laser Cutting
- Tube Laser Cutting
- Press Brake Forming
- CNC Tube Bending
- Robotic Laser Welding
- AWS Certified MIG & Tig Welding
- Parts Deburring & Finishing
- Laser Marking & Silkscreen
- PEM Insert & Hardware Installation
- Parts Assembly

### OTHER SERVICES OFFERED

- Design and Engineering of custom components.
- Researchs and Development for various industries.
- Prototyping.
- Finite Element Analysis and Engineering.

## CLIENTS
